	Claims		NO		
Inventive step (IS)	Claims		YES		
	Claims	1-10	NО		
Industrial applicability (IA)	Claims	1-10	YES		
	Claims		NO		

2. Citations and explanations

Claims 1-10

Document 1: JP, 7-206894, A (Advanced Technology Institute K.K.), 8 August, 1995 (08.08.95)

Document I discloses the idea, when predicting the three-dimensional structure of a protein, of carrying out investigations whereby proteins that have a known three-dimensional structure and are highly homologous to the protein of unknown three-dimensional structure are selected. It also discloses the idea of investigating physico-chemical parameters such as degree of polarity and pK value in this

It is considered that it would be obvious to a person skilled in the art to use the hydrophobicity or hydrophilicity of the side chains of the amino acid residues as such a parameter.
